

AP/Honors Enrollment Contract

As a student requesting an AP/Honors course you are choosing a curriculum that goes beyond the basic high school graduation requirement in terms of pacing, organization, and academic rigor. When you select to take an AP/Honors course, you are making a commitment to a year long course that demands the following from its AP/Honors participants.

- **Time Commitment** – Weekends, long breaks, and Access time will be used to stay on schedule with content information. Expect daily homework appropriate for the time frame.
- **Participation** – being prepared and displaying a willingness to actively take part in classroom discussions, simulations, and group work.
- **Work Ethic** – Those who are willing to stay on course will find success. Anyone who lacks the discipline to meet the rigorous demands these courses may encounter trouble.
- **Initiative** – Students should regularly check the websites of their AP/Honors classes for assignments.
- **Summers** – Most teachers assign summer work to be completed before the start of the school year. Link to summer assignments is available through EHS website – evergreencougars.net. Failure to complete summer assignments does not constitute an academically compelling reason to drop an AP/Honors course.
- **AP Examination** – EHS students are required to take the AP exam, and it is a major focus of the course content and instruction. There is a cost in excess of \$90 for each AP exam taken.
- **Fees and Materials** – There are additional costs incurred for participation in AP courses. Many courses require that students purchase their textbook or workbook and may require lab fees.
